

WORK EXPERIENCE

➔ **Junior AI Engineer, Neerja Softwares Pvt Ltd, Jaipur (Rajasthan)**

July 2025 - Present

Projects :

Multi-Agent AI Chatbot Platform (Production SaaS)

Scaled and deployed a production-grade multi-agent AI chatbot platform with tool-calling, orchestration, and RAG pipelines. Enabled multi-tenant memory and deployments across Web, Chrome Extensions, WhatsApp, and e-commerce platforms with optimized cost and latency.

Tech: **FastAPI, LangChain, LangGraph, MCP, ChromaDB, FAISS, Docker, Python, Redis, Celery, MinIO, PostgreSQL**

Project Coordinator & AI Automation Lead – Website & RSVP Platform

Led the development and successful delivery of an event website with an integrated RSVP management system. Managed the complete project lifecycle, coordinated the development team and client, and implemented WhatsApp automation to streamline attendee registration, confirmations, campaign reminders, and event communication. Improved operational efficiency by automating manual workflows and ensuring on-time project execution.

Tech: **GETGABS**

Multi-Agent A2A Workflow Orchestration Prototype

Designed a multi-agent system enabling autonomous collaboration for product recommendations, sales analysis, and discount application. Deployed a fully containerized full-stack solution with strict data isolation and scalable orchestration.

Tech: **LangGraph, FastAPI, ChromaDB, Elasticsearch, Docker, Python, PostgreSQL**

Real-Time RAG Chatbot with Kafka & WebSockets Prototype

Scaled a real-time RAG chatbot using Kafka-backed asynchronous pipelines for scalable document Q&A. Implemented FAISS-based retrieval, secure PDF ingestion, and WebSocket streaming for low-latency responses.

Tech: **Apache Kafka, FastAPI, WebSockets, FAISS, OpenAI API, Docker, Python**

➔ **AI Intern (Onsite + Paid), Quest Digiflex, Indore**

May 2025 – July 2025

Description : Led AI development for a fitness mobile app across 3 core use cases - Calorie Counter (Food), Pose Classification and Analysis (Exercise), Chatbot.

Tech : **Transformers, Fine Tuning Pretrained Model, Flask, PIL, MediaPipe, OpenCV, LLM(Gemini)**

➔ **Data Scientist (Contract)**

Jan 2025 – Feb 2025

Description : Configured the microsoft/Phi-3.5-mini-instruct LLM for deterministic and reproducible inference.

Tech : **vllm, hf_pipeline, Runpod, Docker**

EDUCATION

B.Tech, Mediacaps University, Indore

CERTIFICATION

IBM Certified Data Scientist, Innomatics Research Labs, Hyderabad

ADDITIONAL INFORMATION

Technical Skills:

- Languages: Python, SQL
- GenAI & LLMs: Claude, OpenAI, Gemini, Phi-3.5, Hugging Face, vLLM
- Frameworks: FastAPI, LangChain, LangGraph
- Databases: PostgreSQL, MongoDB, ChromaDB
- MLOps & Tools: Docker, Redis, Celery, MLflow, Prefect
- Visualization: Power BI, Matplotlib, Seaborn

Languages : English, Hindi

Achievements : GitHub PULL SHARK Badge – Hacktoberfest, Open-Source Contribution
